

Midnight UI: final CSS, all files

These are the **complete** style files for your Midnight UI, **after** all updates (CHANGES-7: image upload, registration checklist, Go to course, delete review, footer, cart warning; and the Login with Google button). Paths are inside `angularapp/src/`.

How to use: open each file in your project, select everything, and replace it with the code below. Because these are whole files, you do not need to paste any "append at the end" blocks from CHANGES-7 or the Google guide any more (that would duplicate them). If you already pasted those blocks, replacing the whole file is still correct.

Need these installed (your repo already has them): `@fontsource/inter`, `@fontsource/plus-jakarta-sans`, `material-icons`. They are loaded by `theme.scss`.

Empty files: a few component CSS files are empty on purpose (marked below). Leave them empty.
